Phone: 615-577-6758

*The Harris County Medical Society (HCMS) has established a program to invite businesses serving physicians and their staff to support HCMS and increase their visibility among HCMS members. Corporate support of HCMS contributes to HCMS's ability to advocate and care for physicians and patients in Harris County. HCMS thanks these organizations as it shares with HCMS member information about their products and services.

The Harris County Medical Society does not endorse any vendors. HCMS recommends that you talk to several companies and obtain multiple bids for services needed. Additionally, HCMS recommends that you obtain references from the vendors from similar physician practices that have utilized the same services that you are requesting.
