

Friends of the Society

AGREEMENT

Harris County Medical Society (HCMS) established its Friends of the Society program in 2005 as a way for organizations serving physicians to support HCMS and increase their visibility among HCMS members. It's an exciting opportunity to be included in HCMS' information network, enabling companies to bring their value proposition to the forefront of the membership of the largest county medical society in the country. Corporate support of HCMS contributes to its ability to advocate and care for physicians and patients in Harris County.
