

September 8, 2017

Dear HCMS Members,

We have received an overwhelming response to our request for volunteers at NRG Center and couldn't be more grateful to our local and out-of-state medical professionals who have offered their time and expertise. Our medical relief efforts are going to last for at least a few more weeks and we will need more volunteers as this process continues, so please sign up to both get on the schedule and be available to fill last minute openings in coverage.

Currently, the primary needs for the facility are licensed physicians (ER, Critical Care, Pediatric and Psychiatric), nurses, mid-level providers, residents and medical students. The physicians are working 4 hour shifts (3-7-11) but are welcome to work multiple shifts if available. Mid/level providers are working 8 hour shifts (12-8-4). We are asking that support staff volunteer in 4 hour blocks.

If you are interested in volunteering, please send an email with the following information to [webadmin@hcms.org](mailto:webadmin@hcms.org):

- Full Name
- Phone Number
- Email
- Skill (physician, nurse, resident, etc.)
- Dates of availability thru September 30
- Times of availability

If you have already sent an email, you do not need to resubmit your information. If you are needed for a shift an HCMS staff member will contact you. If you have not received a volunteer confirmation via phone or email, please do not show up at NRG.

We are grateful for your support!!

Sincerely,

Lisa L. Ehrlich, MD  
HCMS President
